

### Smoke Blower Features:

- Effectively identifies inflow
- For use with traditional smoke bombs or liquid smoke
- Available with Honda or Briggs & Stratton engine
- Generates up to 3769<sup>1</sup> cubic feet per minute of air flow
- Made of lightweight, cast aluminum

### Equipped with:

- ½" foam cell gasket to insure a leak-free seal on manholes and minimize vibration
- Smoke bomb box holder (traditional smoke blower only)
- Pressurized tank, hose and all necessary components (liquid smoke blower only)

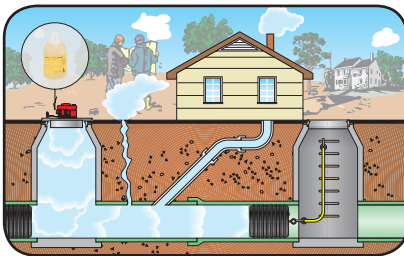

### Smoke Generating Device (SGD) ("Smoke Bomb") Features:

- Produces a thick, dense smoke
- Time-proven
- Simple to use
- Can be used with most smoke blowers
- 3 minute bombs available with double wick allows units to be strung together for a longer smoke time

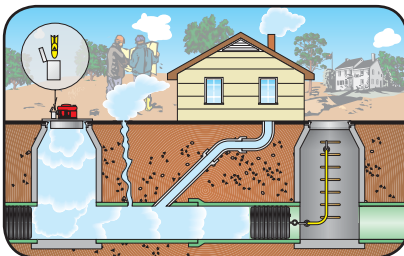

### Smoke Fluid Features:

- Produces thick, dense smoke
- Easy-to-regulate
- Virtually indefinite storage life

"Liquid Smoke" Blower

Traditional "Smoke Bomb" Blower

Part#	Description	Product Weight
<b>Smoke Testing Products</b>		
303550	Smoke blower, smoke bomb kit: Briggs & Stratton engine	65 lbs (29.5 kg)
303568	Smoke blower, smoke bomb kit: Honda engine	65 lbs (29.5 kg)
303008	Smoke blower, fluid conversion kit: Briggs & Stratton engine	66 lbs (30 kg)
303018	Smoke blower, fluid conversion kit: Honda engine	66 lbs (30 kg)
014722	Smoke blower replacement fan	2.5 lbs (1.1 kg)
045158	Smoke bomb holder	3 lbs (1.4 kg)
036308	Fluid smoke conversion kit: Briggs & Stratton engine	10 lbs (5 kg)
038558	Fluid smoke conversion kit: Honda engine (pre 2006)	10 lbs (5 kg)
061028	Fluid smoke conversion kit: Honda engine (2006)	10 lbs (5 kg)
036488	Fluid smoke container with hose: two gallon capacity	5 lbs (2.5 kg)
035058	Fluid smoke: one gallon (4 per case)	8 lbs (3.6 kg)
035068	Fluid smoke: five gallons (1 per case)	40 lbs (18.2 kg)
034348	30-second SGD (12 case quantity)	2 lbs (1 kg)
034358	60-second SGD (12 case quantity)	2 lbs (1 kg)
034368	3-minute SGD (12 case quantity)	6 lbs (3 kg)
034378	3-minute SGD double-wick (12 case quantity)	6 lbs (3 kg)

<sup>1</sup> - CFM performance based on independent laboratory tests. When tested side-by-side at an independent air flow laboratory, Cherne's line stringer, ventilator, and smoke blower beat the competition at every flow condition.

<sup>2</sup> - A copy of the independent lab results available upon request.
